White Knight Announces the Acquisition of PCT Systems Inc.

Kamas, Utah (August 26, 2024) – White Knight Fluid Handling Inc., a subsidiary of Graco Inc. (**NYSE:GGG**) announced today that it has acquired the business of PCT Systems Inc. (PCT), a California-based manufacturer of high-purity fluid handling solutions with more than 35 years of experience.

Headquartered in San Jose, California, PCT's team of dedicated engineers and manufacturing craftsmen are experts in a wide variety of quartz and high-purity polymer fabrication serving a broad spectrum of industries, including Semiconductor, MedTech, Remediation, Advanced Optics, Glass, and Additives. The company offers heated process tanks, megasonic cleaning systems, megasonic generators, transducer assemblies, and custom tanks in stainless steel, plastics, and quartz.

“Joining the capabilities of our Imtec brand with those of PCT will enable us to further our reach to customers in the semiconductor market as well as to other emerging markets in MedTech and Advanced Optics”, said David Simmons, White Knight’s Vice President of Sales. “With the company’s 35 plus years of experience manufacturing for the semiconductor market, combined with the decades of experiences from White Knight, we can offer a wealth of experience, product knowledge, and manufacturing capabilities to support our combined customers.”

For more information about PCT, please visit <https://pctsystems.com/>

ABOUT WHITE KNIGHT

White Knight Fluid Handling Inc. manufactures ultrapure fluid handling equipment used to deliver, heat, circulate, dispense, and reclaim high-purity fluids, such as corrosive alkaline or acidic chemical solutions, and toxic liquids such as fuels, glues, paints, resins, inks, and wastewater. White Knight products are built on years of proven, reliable technology to meet the stringent manufacturing needs of high-tech industries such as semiconductor, solar, LED, and electronics fabrication.
