* Fiber optic cables ordered separately. Fiber optics are required for operation. Standard configuration includes dual probe WITHOUT fibers. See stroke detect options to order fiber optic cables or single probe option.

Timer mode operation requires end-of-stroke detection. Use of timer mode without stroke detection voids the warranty.

This pump includes Quick Exhaust Valves (QEV). QEVs must be used with this pump. Operating it without QEVs voids its warranty. Customers may use their own QEVs with the optional NPT adapter.
